SUMMARY

Working knowledge of HTML & HTML5 and making Web structure with it.

Hand on experience with CSS & CSS 3 and worked with CSS Animation.

Creating Web Structure with CSS Framework like Bootstrap and using the other features of Bootstrap like Navbar, Tab, Dropdown, Collapse.

During the whole course I worked with JavaScript libraries like J-Query, Slick-Slider, Partica.js etc.

A gentle working knowledge of SASS, Syntactically Awesome Stylesheet and its features.

PROJECTS

—AMULI - (Real Estate)

This is totally created with HTML5 & CSS3, it's structure made with CSS FlexBox and fully compatible with mobile.

<https://alamkare7890.github.io/Amuli/>

—PIZZA_PLACE- (Restaurant Site)

Here, It's developed web markup, Preprocessor Scripting Language and also CSS framework like Bootstrap.

https://alamkare7890.github.io/Pizza_Place/

—TRAVELLU - (Traveling Site)

Developing with HTML 5 and SASS and JavaScript libraries like jQuery, Slick Slider. Making it animated with AOS library.
